

The Classic Trek to the
Quelccaya Glacier

04 days | 03 nights

Description

The Quelccaya Glacier and its impressive lagoons

This is one of the most attractive routes in the entire Cusco region. We'll travel through the surroundings of the Vilcanota mountain range and enjoy diverse landscapes surrounded by beautiful crystal-clear lagoons such as Sibinacocha and Cascara. You'll also witness fantastic views of the immense Quelccaya Glacier, also known as Qoyllur Puñuna, which means "where the stars rest." If you love nature and want to experience the living culture of people who inhabit small, traditional communities, then this program is perfect for you.

We'll start by heading in private transportation to the town of Pitumarca, where we'll enjoy a hearty breakfast. Then, we'll continue our journey toward the Chilca viewpoint and Sibinacocha Lagoon. Near the latter, we'll have lunch. In the

afternoon, we'll head to our first campsite in Mormorani.

Next, we'll hike toward the Yayamari estate and take in some incredible landscapes. After that, we'll ascend to the pass of the same name, from where you'll get a broader view that includes the Chumpe and Yayamari glaciers.

Later, we'll make our way to our campsite near Cascara Lagoon. On the final day, we'll cross the vast Phinaya valley until we reach our lunch spot, where we'll witness the world's largest tropical glacier: the famous Quelccaya. After taking in this magical place, we'll return to camp and then head back to Cusco with unforgettable memories of our adventure.

Personal Gear and Medications

* Trekking Towel:

A small to medium sized hiking towel can come in great use. LifeVentures or Discovery provide good, quick-drying trekking towels.

* Small Locks:

To protect your belongings in your rucksack or duffle bag

* Waterproof Ziplock Bags:

These come in handy for storing important / valuable items like your money, a passport and electrical equipment

* Isotonic Powder:

Can be used to flavour your water nicely and helps replace electrolytes, improving energy levels and aiding water absorption. Here are some good Isotonic powdered drinks

* Diamox:

Also know as acetazolamide, is a medication that can be used as a prophylactic (preventative) solution for altitude sickness. It does not cure altitude sickness and should never therefore never be used as a method to continue ascending to high altitudes. It can however help prevent the onset of altitude sickness and is commonly used by high altitude climbers and trekkers.

* General Medications:

We recommend taking paracetamol or aspirin for headaches (a common altitude sickness symptom on the Salkantay Trek) and Imodium for diarrhoea (another common problem as food preparation can be a little unhygienic)

* Basic First Aid Kit:

If you are joining an organised trek, your guide will most likely be carrying a first aid kit. If you are hiking unsupported or independently then a first aid kit is a must. Here are some compact and good outdoor first aid kits: Outdoor First Aid Kits

* Suncream / Lip balm:

No one wants burnt skin or cracked lips! Be sure to bring 1 x suncream (SPF 30) and 1 x lip balm

* Baby wipes:

For quick and easy wet washes when no showers are in sight! bring 1 x baby wipes

* Blister Plasters:

The dreaded blisters! We recommend taking Compeed blister plasters

* Hand Sanitizer:

Great for disinfecting hands before and after eating, or when they get dirty during the hike
